

Soul / intent is forged then shaped. It is annealed to maintain its integrity in order to preserve its "true" purpose / potential (know the path)

The intention of the party is the soul of the instrument

one is baptized / initiated and then purified to unbind one from the earthy chains so one may ascend and fulfill one's divine / true potential (walk the path)

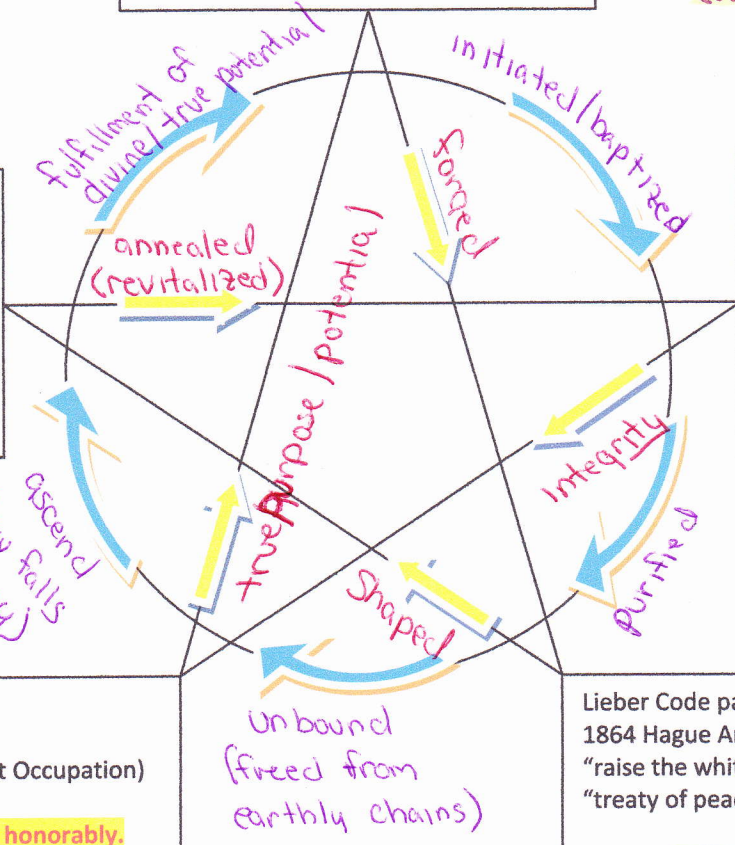

Judge / Mason / Forensics
Issues orders to the civilian "para-military" troops and "kick starts" the governmental apparatus

Lieber Code part 31
Lieber Code part 38
Hague 1907 Article 55
Demonstration of your lack of claim of ownership unto NAME / TITLE
Because there is a mistake.

(Military Gov't and Martial Law)
You will be persecuted
If you are deceived or defending, you are at war - claim upon NAME is controversy (act of war)
Where is the proper notice?

Hague Article 43
"restore public order and safety"
(US Army Doctrine and Belligerent Occupation)
So I may deal with this matter honorably.

Lieber Code part 2
1864 Hague Article 5
"raise the white flag" - help the wounded
"treaty of peace"
I am here for that matter

(yellow arrow: know the path) So, the me-self comes in with "intent" (spirit) with purpose of "going to peace" and "help the wounded" because in every "war" there are "walking wounded" (fire - reason stoking one's desire: forged). In doing so, the me-self understands the me-self agrees to "surrender" all claims of ownership for "one's" glory (air - breathe life into the intent: shaped). To ensure "public order and safety" be maintained (earth - grounded in reality: integrity), one also recognizes the need for one to be "tested" (water - purification of intent: revitalized) and the "spirit" of the "intent" can be "realized" for its "true purpose and potential".

(For the record, I am here for that matter because there is a mistake. Where is the proper notice so I may deal with the matter honorably?) = demonstration of intent (knowing the path)

(blue arrow: walk the path) Now that the "intent" (spirit) has been "initiated" (baptized: water), the "intent" must be "purified" (removed of impurities: fire), and in doing so, the "earthly chains" that bind one become brittle (solid foundation: earth) and enable the me-self to "ascend" and the "law" falls away (rise above: air) so the me-self may begin to fulfill the "divine purpose" of the "me-self's existence and reason of being".

Now, if you will, examine the "domestic parts": $2 + 31 + 38 = 71 =$ manifestation of self-consciousness $= 7 + 1 = 8 =$ paradise regained (returning unto "god" that which was taken: surrender of ego control = "notion of ownership") and then examine the "international articles": $5 + 55 + 43 = 103 =$ self in balance with wisdom allowing for limitless manifestation of creation within the 3rd dimension $= 1 + 0 + 3 = 4 =$ completion.

Take the result of the "domestic" (8) and factor in the result of the "international" (4) $= 8 + 4 = 12 =$ blueprint for the architecture of "our" reality $= 3 =$ manifestation in the physical realm.
